To Whom it may concern,

The California Safe Drinking Water State Revolving Fund Program is requesting the AIS waiver, for drought emergency projects, approved by USEPA on August 18, 2014 be granted an extension due to the fact that the State continues to be in a state of emergency with regard to extreme drought conditions. The initial AIS waiver expired on September 30, 2014 and Program was hopeful that the waiver’s expiration date would be automatically extended with the adoption of the FY2015 Continuing Resolution funding government through Dec 11, 2014; however, Program learned that this was not the case and therefore has assembled this request.

Please let us know if you have any questions or require further information to support this request.

Sincerely,

**Lance Reese, Chief**
