106 Training Webcast August 26, 2009

Introduction to Section 106 of the Clean Water Act (CWA): Grants for Pollution Control Programs

Provide introductory information on the Section 106 program, with particular emphasis on what is needed to establish a water quality program that is eligible to receive Section 106 funding.

www.epa.gov/ow/tribaltraining/2009/tevent0921.html

9

We will be holding a webcast introducing CWA section 106 on August 26. You may register at EPA's tribal training Web site.

Upcoming Training

National Nonpoint Source Workshop
Morongo Casino Resort and Spa
Cabazon, CA
September 29 - October 1, 2009

Focus audience will be those tribes with more advanced 319 programs to implement their NPS Management Program. Watershed-based planning concepts will also be highlighted.

10

I'm very excited to announce our first national NPS workshop for tribes. We have had many regionally-focused workshops for many years now, but this year we have developed a workshop for tribes w/ more advanced NPS programs. The Web site for the workshop is now posted and includes workshop information, hotel and travel information, a description of the field trip and the poster session and a draft agenda. You can register and pay online for the workshop through this Web site, too. All of the workshop information may be accessed through the tribal NPS homepage the appears on your screen.

Upcoming Training

National Nonpoint Source Workshop Poster Session

Morongo Casino Resort and Spa, Cabazon, CA
September 29 - October 1, 2009

Posters can include any NPS-related activities. Tribes do not have to sign up during registration for the Workshop, we will be taking submissions up until the day of the poster session.

www.epa.gov/owow/nps/tribal/tribalworkshop/posters.html

11

We are currently looking for tribes that would like to present a poster at the National Tribal NPS Workshop in September. If you have a NPS-related success story to share, a story of obstacles overcome; amazing collaborations to improve water quality; of measured water quality improvements; or other items of interest to the Nonpoint Source Community. Please contact us so that we can get all of the relevant information to you.

As I mentioned before, you may have questions that arise which were unable to answer on this Webinar. If you're not sure of your EPA region, take a look at the map and identify your location, so that you know which EPA Tribal NPS Coordinator is your contact.

EPA Tribal NPS Coordinators
