

Geologic Sequestration of Carbon Dioxide – EPA UIC Class VI GS Rule

GS Rule Implementation and Class VI Primacy Application Training Agenda--DRAFT

This draft agenda is for the 1.5 day primacy application and implementation training for the new UIC Class VI Rule (sometimes referred to as the Geologic Sequestration, or GS, Rule). It is subject to change, although the topics listed here should remain the same. An updated agenda and other training workshop materials will be sent to registered participants when those materials are available.

Interested parties, such as State, Tribal or EPA Regional UIC Program staff and managers (UIC Permitting Authorities), attorneys involved in state UIC primacy application development or review, and permit writers, are encouraged to attend the training either in-person or via webcast.

Training dates and locations are posted on the workshop registration website at <http://gsworkshops.cadmusweb.com> if interested in attending, please register as soon as possible. Workshops will run throughout January and February, 2011.

Day 1

8:00 - 8:15	Introductions and Workshop Overview
8:15 - 8:30	Walk-through GS Rule Elements, Background Information on UIC and Class VI permits
8:30 – 9:00	146.82: Introduction to the Class VI permitting requirements, the required Class VI project Plans, and the ‘mock’ permit application
9:00 – 9:30	146.83: Site Characterization
9:30 - 10:00	146.84: AoR and Corrective Action, Developing AoR Plan
10:00 – 10:10	BREAK
10:10 – 11:10	146.85: Financial Responsibility
11:10 – 11:45	146.86 and 146.87: Injection Well Construction and Pre-Injection Activities
11:45 – 12:10	146.88 and 146.89: Operating Requirements and Mechanical Integrity Testing
12:10 – 1:15	LUNCH
1:15 – 1:45	146.90: Testing and Monitoring, Developing T&M Plan
1:45-1:55	146.91: Recordkeeping, Reporting and Data Management
1:55-2:35	146.92 and 146.93: Well Plugging and PISC/Site Closure, Developing Well Plugging/PISC Plan

2:35 -3:00	146.94: Emergency and Remedial Response, E&RR Plan Development
3:00 -3:15	BREAK
3:15 -3:40	146.95: Injection Depth Waiver Applications
3:40 -4:40	Implementation Considerations: Public Involvement/Outreach/Environmental Justice Considerations in Permitting/Interstate Coordination/Re-permitting Existing Injection Wells
4:40 -5:00	Open Discussion / Q&A

Day 2

9:00 - 11:30	Class VI Primacy Applications – Q&A –Intro to Tools in the Implementation Manual
11:30 -12:00	Open Discussion: feedback on training (presentations, materials), action items, logistics, anything else?
12:00-12:15	Wrap Up

AGENDA NOTES:

The Class VI Implementation Workshop in Regions 3 and 4 will begin with the session on Applying for UIC and Class VI Program Primacy, so the agenda will be re-organized accordingly.

The UIC Class VI Implementation Workshop in Region 6 (Austin, TX) is planned to begin at the conclusion of the GWPC Winter Meeting. Therefore, the Region 6 training will start with a half-day in the afternoon (discussing Applying for Primacy first) and continue with a full day of presentations on the second day.

Final agendas will be emailed to all registered workshop participants prior to their workshop.
